Dear Mr. Miller:

Re: Lab Suitability Status, MIL-PRF-38534, FSC 5962, VQH-11-022685

Based on a review of your X-Ray procedure and additional information, a satisfactory confidence level of Laboratory Suitability has been demonstrated. Therefore, your facility at 4707 Dey Road, Liverpool, New York is considered suitably equipped to perform testing on military devices for the test method of MIL-STD-883:

<u>TEST</u>	<u>METHOD</u>	<u>CONDITION</u>
Radiography	2012	N/A

All screening, conformance inspection, periodic inspection, and qualification tests must be performed by a facility that has been issued Laboratory Suitability by DLA Land and Maritime-VQ for the applicable test method and condition.

This Laboratory Suitability is valid until withdrawn by this Center. This Laboratory Suitability is subject to the conditions stated in DoD 4120.24-M and SD-6.

If you have any questions concerning this letter, please contact Ms. Tonnu at (614) 692-0586.

Sincerely,

JAMES ESCHMEYER
